**The Following Section is for RABBIT Customers ONLY**

Date of rabbit/s vaccination/booster (you must bring vaccination card with you on day of arrival - rabbits need to be vaccinated every year) please note a 2-week gap between date of first ever vaccination and arrival date of pet's holiday is required to ensure the vaccine is working

---

---

Has your rabbit/s had the new vaccine for RVHD2? This will become compulsory when it is more widely available from vets, please contact your vet to make a booking

---

Has your rabbit/s been treated by a vet with **Rearguard** for flystrike? If yes, please give the date this was done (Rearguard should be applied every 8-10 weeks and is **STRONGLY recommended between April-October**)

---

---

Do you treat your rabbit/s at home with over the counter sprays for prevention of flystrike? If yes, please give details of the product/s used and the date this was last done

---

---

We kindly ask you to ensure your rabbits bottom area is clean and faeces free prior to boarding, (particularly important during warmer months, April-October due to flystrike risk) unless there is an existing medical reason preventing this e.g. arthritis/teeth problems.

A condition of boarding is that your pet is in a fit and healthy condition with no fleas and your rabbit must have had their vaccinations. Chickens need to be wormed prior to boarding. However, if we are unable to make contact (no answer on telephone) we reserve the right to take your pet to a vet immediately if we feel this is an emergency. If required we will take your pet to your registered vet if this is within a 5-mile radius, otherwise our own vet will be used (Rutland House, St. Helens). Any vet fees will be payable by you when you collect your pet. We accept no liability in the unlikely event your pet becomes ill, injured, lost or dies during their stay.
